

Jennifer Stone

Athletic softcore model turned slut!

The nice and leggy blonde Jennifer Stone is fantastic. She has been modelling for a long time, but only the last few years have she started doing hardcore, and now she's a complete slut, just like we want her! She no longer shys away from anything, including getting intensely doublepenetrated. You don't want to let this slut slip through your net! There are reports you might even find her as an escort.

She has a sexy athletic body, small waist and wide hips, somewhat similar to [Susana Spears](#).

She also has [her own site](#).

Some feel she is a bit of a Jennifer Aniston lookalike, that adds some extra spice to her scenes, don't you think?
