

# Mia Stone - sweet Hungarian erotic model

**Pretty blonde, very sexy legs and ass**

Mia Stone is a very pretty erotic model. She has awesome legs and ass, blond hair, sometimes with a hint of red, and relatively small breasts. She seems like a sweet girl and she doesn't do much hardcore or more extreme sex. For a DVD with Mia Stone getting fucked, *Une Pute Pour Noel* is not a bad choice, apart from the very annoying dubbing. She does a duo with Alexa May where they take on a really fat cock.

Anyway she is very hot and we think you will like her.
