

Susana Spears - one of the nets erotic supermodels

Hourglass figure, great legs, great ass!

Susana Spears, often also under the name Susana Miller, has been one of the most popular models among porn connoisseurs on the net for many years. We don't think she is quite as pretty any more as she was in her younger days, but she still has a stunning figure, and her legs and ass makes a man think of only one thing - how much he would like to fuck her! She has quite wide hips for a model, which is very sexy. In terms of her figure we think she has a bit in common with [Jennifer Stone](#).

As far as we know Susana is one of those models who have steadfastly stayed away from boy-girl hardcore, which makes her even more a cockteaser. But who knows, as she is starting to get old (for a porn model) perhaps she will surprise us with some juicy hardcore to enjoy before she departs from the scene. The kinkiest we have seen her do so far is a double penetration with toys ([1byday](#)).
